

MARK ALLEN D. BANASTAO

Rodriguez, Rizal | 09297031437 | Male | banastaoa5@gmail.com | Roman Catholic | March 14, 2005

SUMMARY

Motivated third-year Computer Engineering undergraduate at Colegio de Montalban with a strong focus on computer systems, network fundamentals, and cybersecurity concepts. Skilled in hardware diagnostics, basic system troubleshooting, and office productivity tools.

CORE SKILLS

Computer Hardware Troubleshooting, Network Fundamentals, Cybersecurity Basics, System Diagnostics, Software Installation & Configuration, PC Assembly & Maintenance, Microsoft Office Suite (Word, Excel, PowerPoint), Problem Solving, Technical Documentation, Analytical Thinking

PROJECTS

Microcontroller-Based Smart Traffic Light Control System — Dec 2025

- Designed and built an automated traffic management prototype integrating microcontrollers, LED indicators, and timing control logic to optimize intersection vehicular flow.
- Handled circuit wiring, component testing, and hardware troubleshooting to ensure reliable sensor triggering, fail-safe operation, and consistent signal cycles.

EDUCATION

Colegio de Montalban — Bachelor of Science in Computer Engineering	2023 – Present
Rodriguez, Rizal	

CERTIFICATIONS

Computer Hardware Basics - Cisco networking Academy
